

# Eyedeline

## Marine Ingredient

### Targeting

Eyedeline Targets the three key concerns of the eye area: eyebags, dark circles and wrinkles for complete eye care

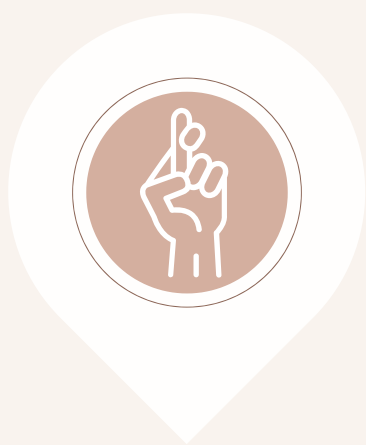

---

### Diminishes

Eyedeline marine ingredient diminishes all the signs of tiredness and aging in the eye contour

---

### Realistic Expectations

Eyedeline contributes to reducing vascular pigmentation which causes dark colouration under the eyes

---

### Rejuvenating

The rejuvenating effect of Eyedeline marine ingredient is supported by a series of clinical tests showing great visible reduction of the eyebags volume already after 14 days of applying a serum with 4% active ingredient, and a 8.2% reduction after 28 days
